COMIC POSTERS

BY ECORANGERS

Introduction

EcoRangers – Journeys of Impact is an Erasmus+ initiative supported by Landskrifstofa Erasmus+ – Rannsóknamiðstöð Íslands through funding agreement 2024-2-IS01-KA210-ADU-000265496. **The 19-month project is jointly implemented by CIRCA in Iceland and Slovak Eco Quality in Slovakia.**

The project approaches travel as more than simply moving from one destination to another. It explores the experiences, interactions, and learning opportunities that can arise along the way, with a particular focus on creating more meaningful and conscious journeys.

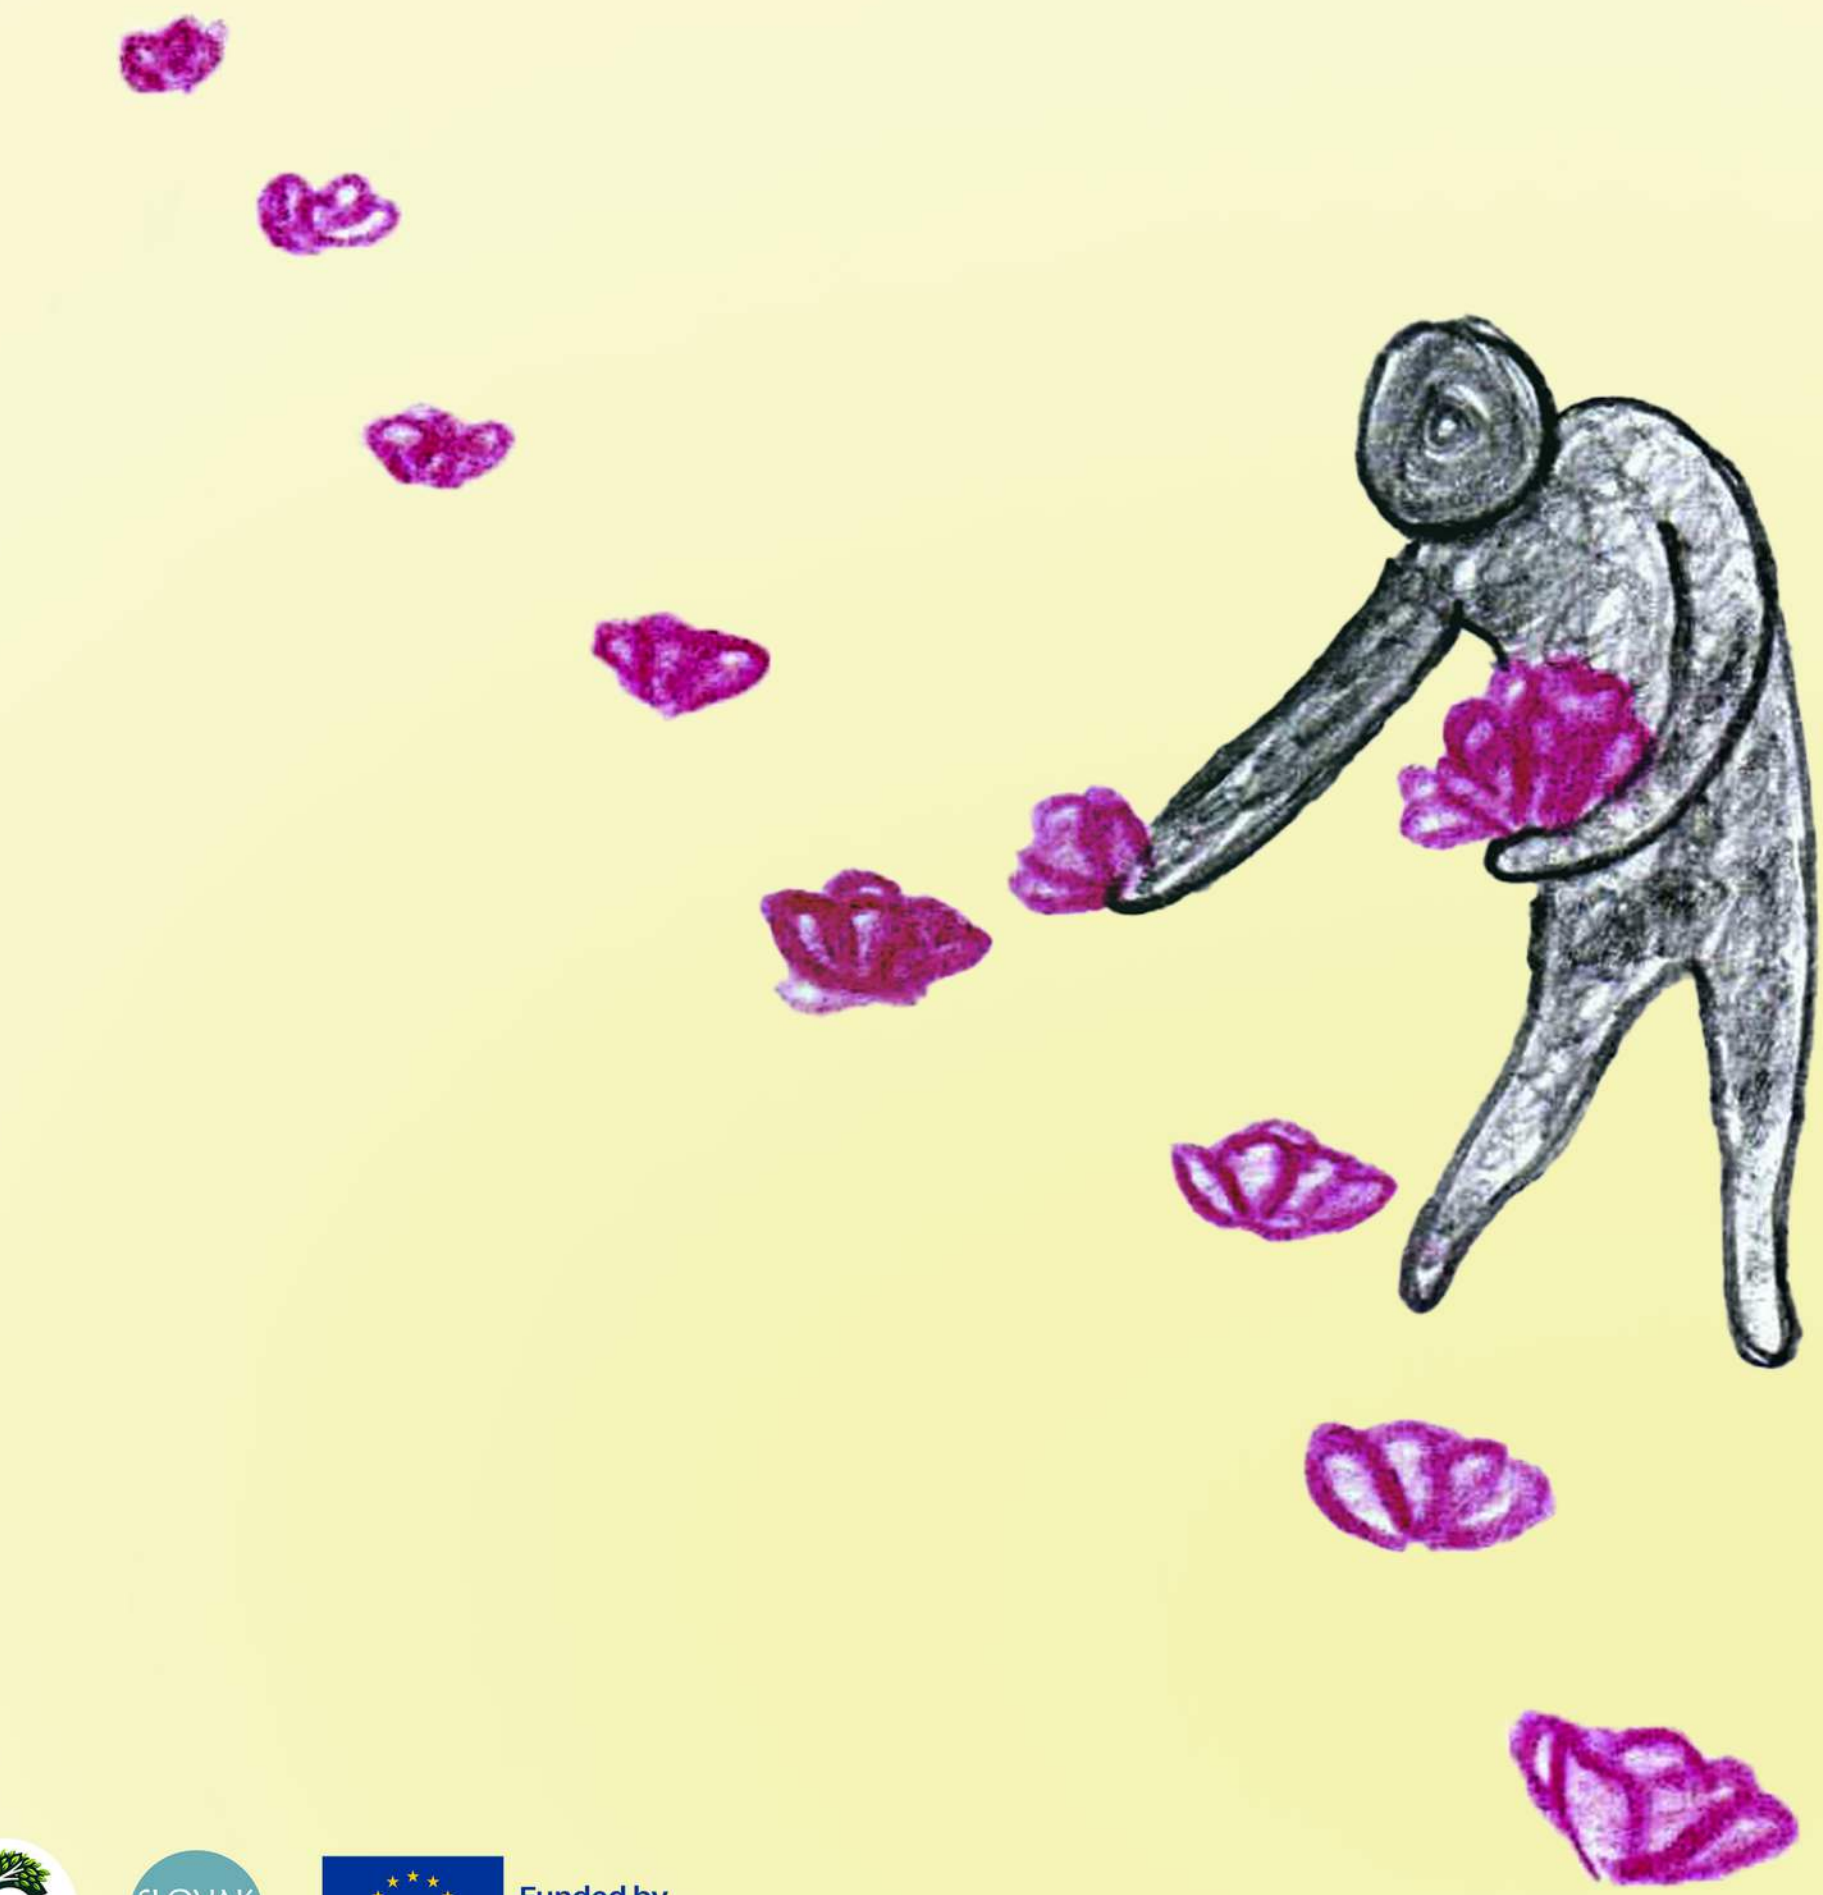

Through its activities, Eco Rangers – Journeys of Impact brings together adults, educators, trainers, travellers of all ages and community facilitators to explore new perspectives on travelling and its wider role in society. **The project encourages a more thoughtful approach to experiencing different places and cultures, while highlighting the potential of travel to support positive change at both an individual and community level.**

One of the objectives of the project was to organise 20 local workshops, with 10 taking place in Iceland and 10 in Slovakia. The workshops explored topics related to sustainable travel, mental health, personal well-being, and responsible travel choices. They provided participants with an opportunity to reflect on their own travel experiences and consider how travelling can influence both individual well-being and the communities and environments.

The ideas and insights gathered during the workshops were then transformed into a series of comic posters. **Using visual storytelling, the posters communicate key messages from the project in an accessible and engaging way, making complex topics easier to approach and understand.**

The materials are intended for display in hostels, hotels, community houses, local stores, yoga centres, and other places frequented by travellers. This allows the project to move beyond the workshop setting and engage people in their everyday travel environments. The comic format offers a creative way to spark curiosity, encourage reflection, and introduce travellers to more mindful and responsible approaches to their journeys.

WHAT ARE YOU LEAVING BEHIND?
